

- The Red Cross -The Red Crescent**
- Greenpeace**
- Amnesty International**
- Doctors Without Borders**

All of these are examples of

- A) United Nations relief organizations**
- B) non-governmental organizations**
- C) U.S. cabinet-level departments**
- D) governmental organizations**

The correct answer is B) non-governmental organizations.

All of these are examples of non-governmental organizations.

Non-government organizations or NGOs are a non-profit organization that is run by citizens with the aim of helping a noble cause. These organizations are part of the so-called civil society because these do not depend on any official governmental institutions and have no compromises with political interests. These organizations such as the Red Cross, the Red Crescent, Greenpeace, Amnesty International or Doctors Without Borders are dedicated to improving the living conditions of humans and the protection of the environment.

B , Red cross gives the answer right away
