

- **prehistoric Indian civilizations created them • made of dirt by hundreds of workers**
- **used for different purposes, like burying the dead or building sites for important temples**

The phrases in the box above BEST describe
earth homes
soil deposits
earth mounds
land fills

Your answer is Earth Mounds.

During prehistoric Indian civilizations, hundreds of workers gathered baskets of dirt to sites that became tall earth mounds. These earth mounds were used for different purposes, such as burying the dead with great ceremony or as building sites for important temples.

Which of the following observations of children is the most objective? A. Chris took a toy truck from Alex. Alex cried, became angry because Chris took the truck, and then stamped his feet on the floor. He snatched the truck back from Chris, and ran to the caregiver.
B. When Ann finished drawing with crayons, she put them back in the box and returned the box to the shelf, whereas Sue, obviously less disciplined, left hers scattered on the table.
C. Joan was playing with blocks, building a structure, when Missy joined her. Joan looked afraid because Missy was much larger than she. But she eventually overcame her fear and let Missy play with the blocks.
D. Eddie went to the shelf and chose a teddy bear to play with. He took a plastic spoon and bowl and repeatedly moved the spoon from the bowl to the bear's mouth.
