

**Acceleration is defined as the rate of change for which of the following? A.
time
B. velocity
C. position
D. displacement**

I think the correct answer from the choices listed above is option B. Acceleration is defined as the rate of change for velocity. It is the change in speed or velocity per unit of time. It is the net result of all the forces acting on an object. B. velocity

No quiero ir a este restaurante la comida es horrible es el de los restaurantes mexicanos (A) peor

(B) mejor

(C) mayor

(D) menor

Your lab develops a synthetic compound that is extremely light but very durable. You test it by making a solid ball with a radius of 20.0 millimeters. Which of the following is closest to the volume of the synthetic compound ball, in cubic millimeters?

The study of economics arises because of the necessity of choice, and the necessity of choice arises because of the fundamental problem of scarcity of resources.

False True

What is the best example of water regulating an organism's body temperature?

14 plus 30 plus? Equals 180

Cherie works in retail and her weekly salary includes commission for the amount she sells. The equation $S=400+0.15c$ models the relation between her weekly salary, S , in dollars and the amount of her sales, c , in dollars. Interpret the slope of the equation.

Nos lavamos el pelo en_____.

Which of the following did you include in your response? Check all that apply. Prepare three test tubes containing reactant A. Prepare three test tubes containing reactant B. Add one test tube of reactant B and one unknown to one test tube of reactant A. Repeat for the other two unknowns. Time the reaction until bubbling stops. The unknown that causes the reaction to occur the quickest is the catalyst.

11 kl = _____ l

(A)1.1

(B)110

(c)1,100

(D)11,000

A 160-kg merry-go-round in the shape of a uniform, solid, horizontal disk of radius 1.50 m is set in motion by wrapping a rope about the rim of the disk and pulling on the rope. What constant force would have to be exerted on the rope to bring the merry-go-round from rest to an angular speed of 0.600 rev/s in 2.00 s? (State the magnitude of the force.)

Hugh Larrimore, Wilson Knight, and Frieda Perez have worked together for twelve years. They always clock in and clock out together. If one of the threesome happens to be late, the others will wait for him or her. This commonly accepted behavior for this informal group is called a(n):

Everyone should learn a sport. Learning a sport is a great way to get exercise and have fun. There are many sports to choose from. Team sports such as baseball and basketball are great for people who want to make friends. Other sports allow people to spend time alone. Swimming and running let people enjoy the great outdoors by themselves. There are even sports for people who enjoy cold weather. Ice skating and skiing are fun winter sports. How does the author support the argument?

A) by describing the sports people can do outside

B) by explaining how sports help people stay healthy

C) by explaining how sports help people make friends

D) by describing the different sports people can join

Currents at the surface of the ocean are driven by: gravity

tectonic plates

salinity

wind

The sum of five times a number and 24 is seventy-nine

Lexi did $\frac{4}{5}$ of her homework. she had to solve 20 problems. how many problems did she solve??

Is a treehouse considered "a house" if i was like 30-40 and wanted to buy a house and settle down do you think i could like still get respected because i live in a treehouse?

Why was the discovery of tutankhamun's tomb an unusual event?

Which concern would an advocate of offshore oil drilling most likely raise about OPEC? A. OPEC controls too much of the world's oil supply, so to reduce economic risk, America needs domestic oil sources.

B. OPEC includes treaties that could suddenly draw the United States into a foreign war, increasing the need for oil.

C. OPEC makes it easy for companies to ship jobs overseas, which hurts the American oil industry.

D. OPEC makes it easy for American companies to build overseas oil rigs that exploit workers to produce low-priced energy.
