What is the english of Papalarin (tagalog)?

What was the cause of the Opium War (1839-1842)? The Chinese government wanted to keep sole control of the opium trade.

The British wanted to stop the East India Company from dealing opium.

British merchants wanted to continue the opium trade with China.

Opium traders launched a series of raids and attacks against Britain.

Read the passage. excerpt from "Why I Write" by George Orwell

It can be seen how these various impulses must war against one another, and how they must fluctuate from person to person and from time to time. By nature—taking your "nature" to be the state you have attained when you are first adult—I am a person in whom the first three motives would outweigh the fourth. In a peaceful age I might have written ornate or merely descriptive books, and might have remained almost unaware of my political loyalties. As it is I have been forced into becoming a sort of pamphleteer. First I spent five years in an unsuitable profession (the Indian Imperial Police, in Burma), and then I underwent poverty and the sense of failure. This increased my natural hatred of authority and made me for the first time fully aware of the existence of the working classes, and the job in Burma had given me some understanding of the nature of imperialism: but these experiences were not enough to give me an accurate political orientation. Then came Hitler, the Spanish civil war, etc.

Refer to Explorations in Literature for a complete version of this narrative.

In this excerpt, Orwell suggests that the works a writer creates are directly connected to how that writer experiences the world of his or her present.

Which textual evidence supports this analysis?

Select each correct answer.

"...but these experiences were not enough to give me an accurate political orientation. Then came Hitler, the Spanish civil war, etc."

"In a peaceful age I might have written ornate or merely descriptive books, and might have remained almost unaware of my political loyalties."

"It can be seen how these various impulses must war against one another, and how they must fluctuate from person to person and from time to time."

"By nature—taking your 'nature' to be the state you have attained when you are first adult—I am a person in whom the first three motives would outweigh the fourth."

Simplify. $(1 + i)(1 - i)$ A) -2 B) -1 C) 0 D) 2

A blog post published on Google by a high school student and reviewed by her friend is included as a citation in a science paper. Is this source considered a peer-reviewed paper? Why or why not? A. This is considered a peer-reviewed paper because the variables used were reviewed by other scientists to make sure they were labeled correctly. B. This isn't considered a peer-reviewed paper because peer-reviewed papers are published only in books. C. This is considered a peer-reviewed paper because it was reviewed by a student peer. D. This isn't considered a peer-reviewed paper because it wasn't reviewed by other scientists in the field.?

The cake store is having a 25% off sale on all of its cakes. If the cake you want regularly costs \$9, how much would you save with the discount

Cheyenne is a manager at her company. She listens to an employee, Enu, voice his opinion about a policy that he disagrees with. After listening to Enu, Cheyenne fixes the problem and her team becomes happier and more efficient. This is an example of the _____ of listening. communicational benefits
personal benefits

professional benefits

academic benefits

What is the weighted average cost of capital for a corporation that finances an expansion project using 40% retained earnings and the rest as debt capital?

Assume the interest rates are 10% for equity financing and 29% for debt financing.

What is 672 divided by 8

What are the next three numbers in the sequence.

3, 6, 4, 8, 6, 12, 10, 20,

The rate of disappearance of HBr in the gas phase reaction $2\text{HBr}(g) \rightarrow \text{H}_2(g) + \text{Br}_2(g)$

is 0.301 M s^{-1} at 150°C

g. is 0.301 M s^{-1} at 150°

c. The rate of appearance of Br_2 is _____ M s^{-1} .

Displacement and velocity are examples of scalar quantities. true or false

Does congress approve supreme court justices

How do you say rude and disrespectful in Spanish

How many times does 5 go into 17?

Approximately 3.5 billion years ago photosynthetic organisms evolved. what dramatic change in earth's atmosphere resulted primarily from this event

If two organisms are in the same phylum, which other classification category must they also share?

1. [Home](#)

2. [More Solution](#)
