

Factorise $x^2 - 25$, thank you :)

$(x-5)(x+5)$ because if you times the two xs you'll get x squared and if you times negative 5 and positive 5, you'll get negative 25!!

Hope this helps!!!

Mr. Ahmed has 9 water heaters for his apartment buildings. each heater weighs 32 kilograms. How many grams do all 9 water heaters weigh together

Last month, Margo bought a tree that grows 2.5 cm each day. It was 5 cm tall when she bought it and is now 65 cm tall

In what way were Augustus

Comte and Immanuel Kant

alike

What year was the constitution of the United States written

Please fill in the blanks

Every year on Independence Day, Nathan's holds a hot dog eating contest. Currently, the champion of the Nathan's hot dog eating contest is Joey Chestnut at 70 hot dogs. The winners of the contest get a bejeweled mustard yellow belt. In 2004 Orbitz donated a travel package for the winner. The event always gets extensive media coverage. Refer to Scenario 16.3. The New York Times has covered the Nathan's Hot Dog Eating Contest in the past. This year they requested a photo of the winner during the contest eating hot dogs. They posted a large shot of the photo on the news website. Underneath they included a brief description of the contest and the winner. This is an example of a _____.
